Project Director	January 1999 – Present																												
HFP Acoustical Consultants Corp.	Calgary Alberta																												
Project Consultant	August 1993 – Dec 1998																												
HFP Acoustical Consultants Ltd.	Calgary Alberta																												
Project management and consulting responsibilities with an acoustical consulting firm																													
Noise Control Technical Specialist	April 1987 – July 1993																												
Noise & Vibration Control Unit, Ontario Hydro	Toronto Ontario																												
Noise data acquisition, analysis and reporting responsibilities with a large electric utility																													
Acoustics Specialist	May 1985 – March 1987																												
ONR Ltd.	Toronto Ontario																												
Engineering research in active noise control																													
Graduate Student and Research Assistant	September 1982 – April 1985																												
Institute for Aerospace Studies	Downsview Ontario																												
University of Toronto																													
PUBLICATIONS	Mr. Maybee has published nine papers relating to noise measurement and noise control for industrial facilities.																												

Mr. Nigel Maybee, m.sc., has a Master of Applied Science degree in acoustics. He has 25 years experience in environmental noise assessments and industrial noise control, specializing in noise measurement, computer noise modeling and noise control design for the oil, gas, petrochemical, mining and power generation industries. He has also conducted many assessments of road and railway noise impact on residential developments. Mr. Maybee has appeared as an expert witness at regulatory hearings and at the Court of Queen's Bench.
